Most kitchen counters are 36" and you need 12" between the seat and the counter top for maximum comfort.

24" stool height for a 36" counter, 30" stool height for a 42" bar.

All armchairs are designed to fit under the Canadel table aprons

Inside the buffet is a shelf that runs along the entire back, 1/2" the depth and 1/2" the height of the interior.

Buffet doors with floating centers to withstand changes in humidity without cracking.

Hutches are equipped with lights to give your china and silver the shine they deserve.

Turn on hutch top light with an easy, one-touch switch.

Drawers have English dovetail construction with central wood glides, solid wood corners and plastic drawer stops for perfect alignment and sliding.

Corner cabinets come in two pieces but we use one Item number. Base only is also available.

Corner depth: wall dimension from front to corner

At Canadel it's all about choices. When selecting your color you will notice M, G, A printed beside the two-digit color code. These letters indicate the options for the color.

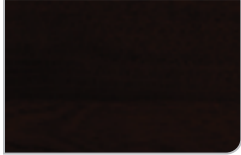

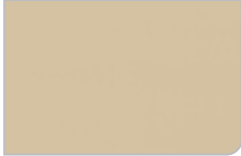

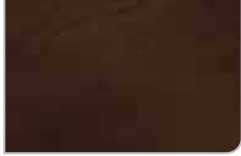

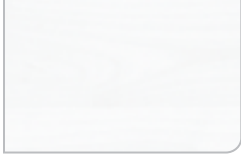

M for **MATTE FINISH**: The most popular finish, has little to no shine.

G for **GLOSS FINISH**: Semi-gloss for an overall shine.

A for **ANTIQUÉ FINISH**: Hand distressed and antiqued to add character to the overall appearance.

It is customary to select one finish for your item, but if you would like to mix finishes you are in luck.

The Warmth of Country Estate

Captivating and relaxing, Country Estate seduces us with its rustic side. Its elegance and simplicity evoke relaxation, long lunches with family and quiet evenings by the fire. A style is that is simply... irresistible.

"I wanted a style that reminded me of the country. I heard about Canadel through a friend. Imagine my surprise to find out that I could customize my entire dining room according to my tastes and my needs!"

Edith Robbins

Retirement

*what a wonderful
adventure!*

At 63, Edith has been retired from nursing for five years. I took care of my patients for 40 years!

Now I take care of myself and my family. I have 2 grandsons who are 5 and 8, and a 6-month-old granddaughter.

My husband works at the Cardiology Institute. He loves his work. He loves what he does, but he has decided to reduce his workload next year to 3 days a week.

Edith's Cookies

Ingredients
500 g of flour
200 g of sugar
3 egg yolks

Preheat oven to 180°C.

Separate the whites from the yolks. Mix flour, sugar and egg yolks. Roll into a ball, let stand and cut.

Bake 20 minutes and enjoy.

Ask the kids to decorate the cookies with icing.

I always sear my vegetables in a little oil, about 8-9 minutes to blend the flavors.

It makes the soup taste better!

The kitchen has always been a part of my life, as far back as I can remember I have always enjoyed it. When I was little I loved cooking with my mother, giving her a helping hand was always fun!

Today I am passing that on to my grandchildren - they love it too!

The Freedom of European Classic

Your decorating preferences are not limited to one style? European Classic is the ideal choice. This collection will allow you to break the rules and express your diverse tastes, with style. With its truly unique elegant look, your dining room will make everyone jealous.

“As we have similar tastes, I let my wife decorate the house. When she showed me what Canadel had to offer, I knew that’s what we needed.”

Adam Diaz

Twice the *pleasure!*

The arrival of the twins has completely messed up our day-to-day routine.

We had to learn to spend more time at home, with the family.

Fortunately, our boss understands: he's grandpa Diaz! My wife and I both work at the family bakery.

That's also where we met. Gabrielle came to buy a Paris-Brest ... and she never left.

The boys love to make sand castles on the beach.

They build whole cities with our old cake pans!

"But where is your brother?"

I ask this question every day!

Brizio and Loris are always on the go! When I found out that I was going to be the father of twins, I didn't get much sleep that night.

It's twice the work, but it is also twice the pleasure!

The Purity of Contemporary Style

Contemporary style introduces a touch of modernism and combines comfort and functionality. Despite its simplicity, it allows for a personal approach that leaves room for variety and subtlety. More space, more comfort, more efficient and less worry in less time.

“One of my clients introduced me to Canadel. Now, when I redesign a house, I know that a kitchen from Canadel is a winning start!”

Nathaly Baraket

Happiness

is all about small pleasures!

I enjoy sharing my love for all things bright and beautiful in the design world.

I recently returned home after living in Ireland for 5 years.

A few years ago I studied interior design, and recently I started a small design company here in Toronto.

My company takes up a lot of my time. I often work evenings and weekends. To maintain balance, I do sports: it helps me deal with the stress.

Things that make me happy:

- A new pair of shoes
- Cooking new meals (last time, my Bloody Mary mussels were a success)
- Visiting new places

My favorite places:

Soma, Toronto

A chocolate maker in Toronto where you can watch artisans make chocolate. The Mayan hot chocolate is pure bliss!

Tohu Bohu, Quebec

A fabulous upscale shoe store in Quebec City I discovered when I visited – shoes to die for!

The Elegance of Transitional Style

Classic and comforting, transitional style combines modernity and tradition perfectly. It is a blend of traditional and contemporary styles based on the search for elegance and harmony. A good way to introduce a more contemporary, original and fashionable side that leans toward a somber decor.

“Facebook is a goldmine. When I found that many architects like the Canadel page, I was intrigued. But when I looked through their online catalogue, I understood!”

Stephen Sheard

www.facebook.com/canadelfurniture

Everyday *is a New Adventure!*

My family is the greatest source of joy in my life. Stacy and I have been married since December 30, 1995 and we have had thousands of wonderful moments raising our son, Cameron.

When I'm not at home, I'm probably off rock climbing or hiking at Green Lake Park with my family.

I have run an architecture firm for 15 years. I have worked with hundreds of clients renovating their homes, or designing and building new living spaces. It's very rewarding.

When I was younger I was really into extreme sports. I've given my parents a few grey hairs in my time.

Camping with my family takes a lot of organizing! It's so much easier when you have the right equipment. The best evenings are when we sit around the campfire with marshmallows and everybody takes turns telling stories. I was voted best storyteller!

My trick: I shine the flashlight on my face when I come to the most important part of the story. It works every time!

New aprons and table edges on rectangular and square tables

The distance from the table apron to the beginning of the edge is $1\frac{3}{8}$ ". Making the apron closer to the edge of the table.

The new edges have been named **A**, **B**, **C** and **D** to replace **1**, **2**, **3** and **4**. Edge option **A** and **B**, no longer have a radius, but now come in a square shape for the corner of the table tops. Edges **C** and **D** which may be compared to **3** and **4** have remained the same.

Example on how to order:

Old code: TAB 0-3611-0101-M-AA-2

New code: TAB 0-3611-0101-M-AA-B

WARRANTY

Our reputation for quality has been an important part of our success, and our commitment to stand behind our products is unsurpassed. Canadel warrants its materials and workmanship for a period of one year following the date of delivery to the retailer. If a defect appears within this time, we will take the following steps to correct it.

If a manufacturer's defect does exist, it will be repaired. If it is impossible to repair, Canadel will replace the product with merchandise of equal type and quality. You will not be charged for any repair or replacement of furniture due to a manufacturer's defect.

ECO-FRIENDLY, More than a Slogan

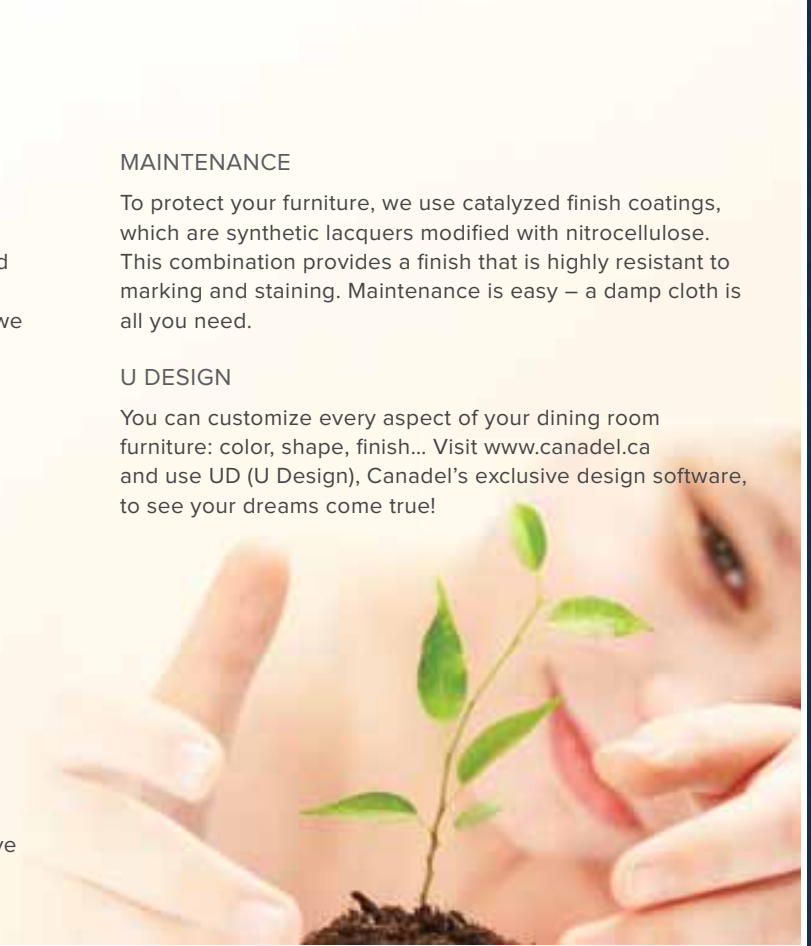

As an eco-friendly company, we have been working relentlessly for many years to efficiently improve the environment. By working with local suppliers we're able to cut down on transport times thereby reducing our carbon footprint. Nature is truly respected all throughout the production process. For this reason our paints, lacquers and solvents are recycled to limit as much as possible any negative impact on the environment. Finally, all cardboard packaging is made with recycled fibers which helps preserve nature itself.

MAINTENANCE

To protect your furniture, we use catalyzed finish coatings, which are synthetic lacquers modified with nitrocellulose. This combination provides a finish that is highly resistant to marking and staining. Maintenance is easy – a damp cloth is all you need.
